If the owner hires a contractor to perform work under the building permit and the contractor is not bonded or insured as required under s.101.654(2)(a), the following consequences might occur:

a) The owner may be held liable for any bodily injury to or death of others or for any damage to the property of others that arises out of the work performed under the building permit or that is caused by any negligence of the contractor that occurs in connection with the work performed under the building permit.

B) The owner may not be able to collect for the contractor damages for any loss sustained by the owner because of a violation by the contractor of the one-and-two family dwelling code or an ordinance enacted under sub.
