Garbage Cart Rules Advanced Disposal 1-888-688-4005

Place container:

On the curb line with the arrows on the cover facing the street.

Within 1 foot of the road's edge.

3 feet from mailbox or light pole.

Away from low wires.

Carts should be 3 feet from each other.

Lids need to be closed.

Carts should be placed in current location on service day.

Garbage should be bagged to keep material from blowing away when cart is dumped.

All material needs to be in the proper cart.

All material needs to be inside the cart for disposal.

It does not matter what color of bag you use for garbage now. Advanced wants you to bag your garbage, but you do not need to put a liner in the cart.

Each cart has a serial number on them that corresponds to your address. The carts are property of Advanced Disposal. Do not take them if you move from your address.

These carts are free to us now. If you damage your carts (drive over it, abuse it, burn it, or anything else to damage it), you will have to pay approximately \$70.00 to \$90.00 to replace it.

Recycling items can all be put together in the yellow covered recycling cart. Don't use a bag for recycling items now, just the recycling items go in the recycling cart. (This will include paper, cardboard, all plastics, all tin and all aluminum). Be sure to note the items that cannot be recycled and put them in your garbage bags. Call if you have questions and we will find the answer.
