PFAS TESTING

Recently, the village tested both of its wells to determine PFAS levels. The results from those tests showed that there were no detectable amounts of PFAS in the samples. These tests are being done as part of a new testing requirement set forth by the WI DNR. Perfluoroalkyl and polyfluoroalkyl substances (PFAS) are a large group of human-made chemicals that have been used in industry and consumer products worldwide since the 1950s.

VILLAGE BOARD MEETINGS

Regular meetings are held at **6:30 PM on the third Tuesday of each month** at the Village Hall. Special meetings and committee meetings are called as needed. All official village notices and village meeting notices are posted 24 hours in advance at the Post Office, Village Shop and the Village Hall.
